

Reserved CPU cores	Last SQL thread error number	Open table definitions	Memory used by DB engine	InnoDB total pages
CPU usage time	Replica metrics get	Open tables	Memory usage	InnoDB fsync calls
CPU utilization	Network lag	Network: Bytes received by MySQL	Memory utilization	InnoDB log fsync calls
DB engine state	Replication lag	Network: Bytes sent by MySQL	Metrics get	InnoDB pages read
Disk bytes used	Slave I/O thread running	Queries	Connections	InnoDB pages written
Disk size	Slave SQL thread running	Questions	Network: Received bytes	Instance state
Disk read I/O	Replication state	Last I/O thread error number	Network: Sent bytes	Memory size
Disk utilization	InnoDB free pages	InnoDB dirty pages	Disk write I/O
